Sendai Language School provides Japanese Intensive Course for those who wish to come to Japan and study during summer vacation in 2016. Course schedule is arranged followed by a lot of topics, so that students can learn a lot within only three weeks. Our teachers are all experienced, and know how they can teach Japanese effectively.

The city of Sendai is the largest in the Tohoku region. It serves as the area's economic, cultural and educational center. At the same time, it is a city of greenery, where people can enjoy the beauty of the changing seasons. Preserving the good old Date culture since 1600 A.D., the gates of the world are now opening to the diverse cultural offerings of Sendai city.
